Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Step-1: Define the Problem Statement

How might we help students, self-learners, and educators get instant, accurate, and personalized educational support — covering question answering, concept explanation, self-assessment, summarization, and learning path guidance — through a single lightweight AI assistant?

Step-2: Brainstorm, Idea Listing and Grouping

Theme 1: Instant Doubt Resolution

Conversational Q&A assistant for instant factual/conceptual answers	Contextual follow-up explanations so answers don't feel like a dead end
---	---

Theme 2: Self-Assessment

On-demand quiz generation for any topic	Instant feedback so learners know where they stand
---	--

Theme 3: Content Simplification

Summarization of long study material into concise notes	Simplified explanations of complex concepts in plain language
---	---

Theme 4: Guided Learning

Personalized learning path from beginner to advanced level	Progression tracking so learners know what to study next
--	--

Theme 5: Accessibility & Performance

Lightweight architecture that runs on constrained hardware (e.g., Mac M1)	Simple, distraction-free interface for students and educators
---	---

Step-3: Idea Prioritization

Ideas were prioritized based on user impact (importance) and implementation feasibility:

Idea	Importance	Feasibility	Priority
Intelligent Question Answering	High	High	High
Simplified Concept Explanations	High	High	High
AI-Powered Quiz Generation	High	Medium	High
Educational Text Summarization	Medium	High	High
Personalized Learning Path Recommendations	High	Medium	Medium
Interactive, Lightweight User Interface	Medium	High	High
